

SAG Motion Spain S.L. is a company belonging to the SAG Group that manufactures aluminium tanks.

We have a strong commitment to the continuous satisfaction of our customers and other interested parties, as our quality policy is focused on meeting the requested standards through an appropriate working methodology. Where all employees are fully conscious of the importance of their work, as well as the quality demanded of the products in order to meet and exceed the expectations of our customers.

To achieve this goal, management aims to work in compliance with the UNE-EN ISO 9001 and IATF 16949 current standards, as well as maintaining a system of continuous improvement.

To this end, a series of objectives have been set in order to achieve our goal:

- To supply the products requested by our customers, meeting all their requirements with the ultimate goal of achieving "0 defects" in our products.
- To assess the reliability of our processes, preventing and averting deviations.
- To identify the different potential risks that may come up in each process.
- To secure the motivation and specialized training of our staff.

Quality is a joint commitment and responsibility of all SAG Motion Spain S.L. staff, who strive to achieve all applicable requirements and are determined to pursue the continuous improvement of the quality management system.

SAG Motion Spain S.L.'s quality policy is reviewed annually to ensure its adequacy to the context of the organization.
